Bhavesh Udhani

Product Designer - Enterprise UX & AI

+91 8290800963 bhaveshudhani96@gmail.com linkedin.com/in/bhaveshudhani Bē /bhaveshudhani /ubhavesh96

Professional Summary

Product Designer with **4 years** of experience across **enterprise, fintech, edtech, and AI products**. Skilled in **UX research, interaction design, prototyping, design systems, and complex workflow design**, with experience translating stakeholder requirements into scalable digital experiences and measurable business outcomes. AI-first product thinker with hands-on experience using **Claude-assisted development** to turn web designs into functional experiences.

Skills

Product & UX	User Research, Usability Testing, UX Flows, Wireframing, High-Fidelity Prototyping, Interaction Design, Information Architecture, Design Thinking, Workflow Design, Design Systems, Accessibility (WCAG)
Design & Systems	Figma, FigJam, Material UI (MUI), Salesforce Lightning Design System (SLDS), Design Handoff, Responsive & Mobile-First Design, Micro-interactions
AI & Build	Claude, Figma Make, Gemini, Stitch, AI-Assisted Frontend Development
Additional	Adobe Photoshop, Illustrator, After Effects, Autodesk Alias, KeyShot, AutoCAD

Work Experience

Software UX Designer **Nov 2024 – Present**
HabileLabs, Jaipur

- **Designed UX/UI for a newly developed Salesforce Sales Cloud product**, creating component-level experiences for Reading List Viewer, Dynamic Forms, Page Guide, Author Acknowledgement, and multi-app help content using **SLDS** and reusable design-system components.
- Translated client requirements into **UX flows and production-ready interfaces** using **User-Centered Design** and **Human-Computer Interaction** principles within **Agile & Scrum** workflows, participating in requirement discussions and collaborating directly with developers through iterative customer testing and product refinement.
- **Tripled BFSI workflow throughput from 2 to 6 files/day** by transforming manual processes into a digital end-to-end workflow and designing an enterprise audit platform using **MUI**.
- Resolved usability friction across a multi-stakeholder **EdTech platform for schools**, leading end-to-end UX design and **user research/usability evaluations** across school, teacher, parent, and student workflows.
- Designed **FinHub** product screens and website UX; built the website frontend using **Claude-assisted development**. Also designed the **Ozoo.ai** product website and a real-estate website that contributed to a **15% increase** in inquiry submissions.

UI/UX Designer **Jan 2024 – Oct 2024**
SkillTo, Remote

- Improved e-commerce checkout conversion by **10%** through responsive UX, wireframes, prototypes, and high-fidelity UI.
- Cut client mobile-app revision cycles by **30%** through end-to-end interaction flows and clickable prototypes; reduced design-to-development rework by **20%** through direct engineering collaboration.

Junior Product & Graphic Designer **Oct 2022 – Dec 2023**
Global Solutions, Jaipur

- Increased engagement by **20% across 30+ clients** through brand identity and UI/UX design; improved campaign CTR by **15%** through digital graphics and motion design.

Customer Care Executive **Sep 2019 – Oct 2022**
Teleperformance, Jaipur

- Supported **1,000+ Amazon sellers** across North American marketplaces, advising on listing quality and best practices.

Selected Product Project

Voice Matters - AI Product Management Capstone
Hindi-first voice AI assistant for discovering verified government welfare schemes. Applied **product discovery, user research, MVP prioritization, UX strategy, AI workflow design, business modeling, and roadmap development** to take the concept from problem definition to a working MVP.

Education & Certifications

BITSOM (Masai) **2026**
